THE POWERS OF HEAVEN TO BE SHAKEN .-Prof. Newmager, on a three years' scientific visit from Bavaria, tells us that in 1865 a comes will come so close as to endanger the earth, and, should it not attach itself to our planet (as one globale of quicksilver to another) nor annihilate us, the sight will be most beautiful to bahold. During three nights we shall have no flarkness, but be bathed in the brilliant light of the binzing train! As the Professor is now on his way from Australia to Bavaria, we shall no doubt hear from him on the subject on his arriving in Europe. These who look for the pre-millennial advent of Christ, and who see around them the "signs of the last times," can, without any great stretch of the imagi-nation, read in Professor Newmager's call-may one to controlled this assertion, and will can, without any great stretch of the imagiculation a partial fulfillment of the prodictions concerning the signs and wonders and shaking of the bearens at "the coming of the Son of Man," contained in Luke xxi.

GAINING STRENGTH .- A student in one of our state colleges was charged by the Faculty with having bad a barrel of ale deposited in his room, contrary, of course' to rule and usage. He received a summons to appear before the President, who

"Sir, I am informed you have a barrel of ale in your reom." "Yes, Sir."

"Well, what explanation can you make?" "Why, the fact is, sir, my physician advised me to try a little ale each day as a tonic, and, not desiring to stop at the various places where this drink is retailed. I concluded to have a barrel taken to my

Indeed! And have you derived any benefit from it?"

"Ah! yes, sir. When the barrel was first taken to my room, two weeks since, I could scarcely lift it. Now I can carry it with the greatest case."

A SAILOR was called upon the stand as n witness. Well, sir, said the lawyer, do do you know the plaintiff and defendant? I dont know the drift of them words, anbinacle, said the sailor. Abalt the binacle, said the lawyer, what do you mean
by that? A pretty fellow, responded the
sailor, to come here as a lawyer, and

#### CELEBRATED STOMACH BITTERS.

A pure and powerful Tonic, corrective and ar-ative of wonderful efficiency in disease of the

David Thwing; thence south 46 rods to the south side of the road; thence westerly 52 rods, to a stake and stones; thence north to the place of beginning, containing 15 acres of land. Also, the following premises, situate in the township of Munson, in the ments no far yestion of any kind; no deadly betanical elements no far yestions that it is a complication.

Tun peculiar taint or infection which we call Schoruza lurks in the constitutions of multitudes of men. It either produces or is produced by an en-teched, vitiated state of the blood, wherein of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and

decay. The scrofulous contamination is va-riously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces attacks. In the ings, storain produces inhercies, and finally Consumption; in the glands, swellings which suppurate and be-come ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These, all having the same origin, require the ame remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease. Ayer's Sarsaparilla

dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Fruntions Pimples Blotches and Some Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Authony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in ATRI'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be ALMANAC, which is furnished to the druggists for grafultous distribution, wherein may be learned the discetions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Serofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results. rital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly sherten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public works the received favored. which is adequate to its cure. This we now offer to the public under the name of Ayea's Sarsapanilla, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived

by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the official surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been

AYER'S CHERRY PECTORAL. The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
